

# Rookeries Reporter

An Interserve Newsletter for The Rookeries School project

Nº1 - February 2019

For more information, please contact Andrew Hague: 07796 274932

Interserve has been on site at The Rookeries School for a couple of months now, constructing a new single storey extension to the rear of the existing school building. This will provide three new classrooms, a studio and kitchen area. An unused temporary building at the back of the school will also be removed, creating a bigger playground area. The works will be completed in time for the new school year in September.

## What's happened so far?

- We've dug out the foundations for the new building.
- We've installed the new drainage that will be underneath the new building.
- We've completed the demolition of the existing temporary building.

## What's coming up?

- A crane will be arriving on site soon in preparation for the steel works commencing.
- We will be starting to install the steel frame for the new building. We will be inviting the pupils to sign pieces of the steel before they are lifted into place. A safe viewing area will be created so the students can safely see the work taking place on site.
- We will be pouring the concrete to create the ground floor slab.
- Once the steelwork is complete, work will be starting on the new roof.

## Considerate Constructors Scheme

The Considerate Constructors Scheme is an independent non-profit organisation that works to improve the image of the construction industry. The Code of Considerate Practice commits the site to care about appearance, respect the community, protect the environment, secure everyone's safety and value their workforce. As a partner, Interserve commits to registering all of its projects with the scheme. To find out more about the Considerate Constructors Scheme visit [www.ccscheme.org.uk](http://www.ccscheme.org.uk) or call 0800 783 1423.
